Union City & Alameda CTC Funded Projects

Project Funding Agreement No. A19-0066.A2

TFCA Funding

Union City Traffic Signal Control Improvements, City Project No. 17-27

On March 15, 2021, City Council of Union City amended and restated a project funding agreement (PFA) with the Alameda County Transportation Commission for the enhancement of the City's traffic signal hardware and software at various intersections. Funding was provided in the amount of \$221,000 from Bay Area Air Quality Management District's (BAAQMD) Transportation Fund for Clean Air (TFCA) Regional Fund and administered through Alameda County Transportation Commission.

This PFA established a revised finish date for the project, December 31, 2023.

The primary components of this project include implementation of Automated Traffic Signal Performance Measures (ATSPM), Adaptive Signal Control Technology (ASCT) and a new Central Traffic Signal Control System.

The project was substantially complete December 2022.
