

New Union City Paratransit Vans and Going Electric!

Union City Paratransit took delivery of one (1) new vehicle to provide service in fall 2022.

The one (1) vehicle is a Ford Transit T-350EL van instead of the traditional cutaway van customers are accustomed to riding. The van has “bus doors” to allow customers to enter the vehicle independently like a fixed-route vehicle. The van allows for better access to facilities and parking lots that the traditional cutaway may not be able to access while providing seating for eight (8) customers and up to three (3) wheelchair positions.

This vehicle is similar to two (2) existing vehicles in the fleet except that it is all-electric!

Your Measure BB funds are making the operation of these news vehicles possible. Be on the lookout for more electric vehicles to serve you in the future!

Thank you for supporting public transit and thank you for riding Union City Paratransit!
