

## Clipper is here!

On April 3, 2017, Union City Transit began accepting Clipper Cards. The Clipper Card is an electronic payment card that is also accepted on over 20 transit operators in the Bay Area. Once customers add value or a pass to their cards, they simply need to tag and ride! For more information, including details about how to get and use Clipper on Union City Transit, visit [clippercard.com](http://clippercard.com) or call Clipper Customer Service at 877-878-8883.

Union City Transit service is funded from a variety of sources including passenger fares, state sales and fuel taxes, and Measures B and BB (the transportation sales taxes administered by the Alameda County Transportation Commission). Measures B and BB both fund various transportation projects and programs throughout Alameda County including Mass Transit and Paratransit Services.
