MAINTENANCE TRAINEE / I – STREETS

DEFINITION

Under supervision of the Streets Supervisor and under direction of the Maintenance II-Streets lead person, performs patch and repair of street surfaces, sign and stripe streets, operate tools and equipment, maintain equipment and street facilities, and perform related work as required.

CLASS CHARACTERISTICS

Maintenance – Trainee – Is an entry-level trainee position. Incumbents learn to perform the full scope of duties of the Maintenance – I class. This class is alternately staffed with Maintenance – I and incumbents may advance to the higher level class after gaining experience and demonstrating proficiency which meet the qualifications of the higher level class.

Maintenance – I – Is the journey-level class in the Street Maintenance class series. Incumbents in this class are fully competent to independently perform a variety of street maintenance duties. This class is distinguished from Maintenance – II which is the lead-level of the series, responsible for the work of a street maintenance crew.

EXAMPLES OF DUTIES

- Patch streets using Class A patching, surface patching, and pothole repair techniques.
- Prepare equipment and tools for jobs; operate equipment and tools such as jackhammer, grader, backhoe, stripe, roller, dump and pickup trucks, and hand and power tools; clean and maintain equipment; perform minor maintenance/repair on equipment.
- Dig post holes for signs; install and/or replace signs.
- Divert traffic with the use of signs, cones, lights, and other safety techniques.
- Clean up roadway spills.
- May oversee the work of one or more seasonal aides or laborers in specific work assignments.
- Clean and maintain catch basins and culverts.
- May act as a Relief Operator, including operation and maintenance of a street sweeper to remove debris from City streets, curbs, intersections and medians (Maintenance I – only).
MAINTENANCE TRAINEE - STREETS
