

COVID-19 and 2020 Summer Programs Updated: 4/24/2020

Union City Community & Recreation Department staff are closely monitoring COVID-19 and the impact it has on our programs. We are working on how to safely re-open facilities and resume programs when it is permitted to do so.

The safety of our participants, community and staff are our top priority. At this point, we recognize that our ability to offer summer camp beginning on June 8 remains uncertain. We also recognize that we will likely have to adapt our program to follow public health guidelines at the time camp is offered, which could impact summer favorites such as field trips and swimming.

In the event that we are able to offer summer programs, we want to be ready to do so and are continuously working to plan a fun summer experience!

Union City Community and Recreation Department staff appreciates how important summer camp and other recreation programs are to the community.

We will continue to keep you updated with regards to summer programming. Thank you for your patience and support as we navigate through this uncertainty.
