- 2) Identify each item by the number on the inspection report

Sample Format for Return to Compliance Letter

Hazardous Waste Generator Inspection Checklist

Violation Number	Correction Made
B.4	All waste stored beyond 90 days has been properly disposed of. The Production Manager is now responsible for tracking hazardous waste accumulation and disposal using a written log.
D.1	All production staff have been provided with a 2 hour hazardous waste training class covering which products are hazardous wastes, proper handling and labeling, internal management practices and spill response.
Narrative 1	The workstation accumulation area now contains only one drum. In the future no more than one drum will be present at any time.
