

CAROL DUTRA-VERNACI

Age: 66

Occupation: Mayor/Tax Professional

COVID-19 threw our economy into a tailspin. My temperament, experience, knowledge, and accounting skills have lent a steady hand to how Union City is responding to this crisis. My first priority is the health and safety of our residents and employees. Fiscal stability and transparency continue among my top priorities during our recovery as we adapt and move forward towards a healthy economy. Black Lives Matter shined a spotlight on systemic racism. I committed to the Obama Foundation Mayor's pledge and formed our Policing and Community Engagement Committee to hear your concerns and transform policing. I am working with our county and Fire Department to reimagine mental health, fire, and emergency medical response. I advocate for our Youth and Family Services programs to support our at-risk youth. I work hard to create housing for the homeless and for all income levels, and a cleaner, safer, healthier environment that addresses climate change. I fight for transportation systems, such as Dumbarton Rail, bicycle and pedestrian paths, and parks and open space to improve our quality of life. You deserve a mayor that makes decisions for the good of our community, now and for future generations. I respectfully ask for your vote.
