

Sarabjit Kaur Cheema

Elected Trustee, New Haven Unified School District (NHUSD)

I am proud of Union City's caring people, good schools, beautiful hills, and excellent transit connections. Union City should not be a pass-through to jobs elsewhere, but a great place to live, work and play.

Climate change is an existential threat to our children. Half-measures are not enough. As a former Transportation Engineer for 19 years, I have deep insight into local and regional sustainable transportation infrastructure. Better transportation options are feasible than adding more mega-arteries that divide our towns.

Strengthening our Chamber of Commerce will bolster economic opportunities for all and will generate more revenue to balance the city budget, without constantly taxing residents and businesses.

Sustainable solutions for our regional housing crisis and initiating a paradigm shift for fairer and more effective policing are desperately needed. The COVID-19 era necessitates expansion of open spaces for our optimal physical and mental health.

Thank you for electing me as your NHUSD Trustee since 2010. I have worked hard to further NHUSD's mission to empower every student to grow into responsible, striving citizens while balancing the budget. As your next Mayor, I want to enable a bolder vision to make our City shine.

I'm the clean money candidate.
