

Measure B, Measure BB and Paratransit ... Your Tax Dollars at Work!

Measures B and BB are transportation sales taxes administered by the Alameda County Transportation Commission (ACTC). Both Measures fund various projects and programs throughout Alameda County including ADA Paratransit. Union City Paratransit is one of the three ADA-mandated paratransit providers in the County. Union City Paratransit provides origin-to-destination service within Union City and has limited service to Hayward, Fremont and Newark. Passengers connect from East Bay Paratransit at the Union City BART station or the Union Landing Transit Center. Registered riders are also approved to ride any other ADA paratransit service in the nine-county Bay Area. In Fiscal Year 2015, Union City Paratransit provided almost 21,000 trips. It would not be possible to provide this valuable service if it were not for this important funding source. Measures B and BB, your tax dollars at work!
