Measure B

Advising the Governor and the Legislature of the State of California of the will of the people of the City of Union City to have enacted into law a reallocation of existing sales and use taxes.

Should the Governor and Legislature of the State of California be advised that:

It is the will of the people of the City of Union City that the Governor and Legislature apportion the existing six cents state sales and use tax so that two cents rather than the present one cent be allocated to be used by cities and counties for priority local services rather than by the state for state services or to the state surplus.

It is understood that if the Governor and the Legislature so act, any funds resulting therefrom which would cause the city to exceed a spending limit imposed by a vote of the people of the City of Union City or the State of California shall be returned to the people or expended for capital improvements.

Further it is the will of the people that the Governor and Legislature enact such allocations into law by no later than the first of May 1980, to avoid the unnecessary enactment by the people through the initiative process to cure legislative default.
