

For many immigrants, we came to the US to find a better life, to achieve our American Dream. I am an immigrant, and America has given me opportunities I cannot find elsewhere: I earned a PhD in Theoretical Physics. I have been a Scientist, a Professor, and also a business owner. My family has made Union City our home for the past 26 years.

Part of my American dream is to contribute my time and skill to the community. I served for 4 years as an elected trustee on our neighborhood school board. I currently serve as a county commissioner as well as on several non-profit organizations, including the Union City Chamber of Commerce, Rotary Club and Union City Friends of Sister Cities.

Please consider casting your ballot for me as your voice on the City Council. My priorities are to promote a strong and robust economy for Union City, establish safer communities, enhance youth recreation programs and services, expand the health and welfare of our senior citizens, and celebrate our diverse community. Please visit votejeffwang.com for more information about my campaign, or email me at jeffwangforcitycouncilor@gmail.com. Thank you.
