

Attachment A: Bicycle and Pedestrian Projects

Newsletter – FY 2021-22 Measure B & Measure BB funded *Bike & Pedestrian Projects*

[Alameda County Transportation Commission \(Alameda CTC\)](#) administers the voter-approved half-cent sales taxes known as Measure B and Measure BB funds and dispenses the pass-through portion of the funds to the various agencies in proportion to their populations.

In FY 2021-22, the City of Union City undertook several important projects that utilized Measure B & BB funds.

Union City Boulevard Class II Bicycle Lanes Project continued it forward with completion of its design plans. Construction is estimated to begin in the 2nd half of 2023.

City's Bicycle & Pedestrian Master Plan update was wrapped up and finished. The updated plan can be found at the following: <https://www.unioncity.org/444/Bike-Pedestrian-Plan>

Smaller efforts to improve public infrastructure such as sidewalks, curb & gutter, and ADA ramp repairs took place as annual maintenance. City will continue these maintenance efforts utilizing Measure B & BB funds for as long as they are available.

Additional information on all Alameda County Transportation Commission (Alameda CTC) funded City projects is available on City's website at [Alameda CTC Funded Projects](#).
